

## **ECLS-K:2024**

The Early Childhood Longitudinal Study, Kindergarten Class of 2023-24 (ECLS-K:2024) will follow a sample of 21,000 children in 1000 schools from kindergarten through fifth grade, with data collections planned for fall and spring of kindergarten, and spring of first, third, and fifth grade. Data collection includes one-on-one CAPI child assessments, parent web surveys with telephone follow-up, and teacher and school administrator web surveys with hardcopy follow-up. A field test is planned for fall 2022 with school recruitment the prior spring (3000 children and their parents and teachers from approximately 50 schools). National data collection begins in fall 2023, with school recruitment one year in advance. Advance school contact and transfer school recruitment will occur in the fall of first, third, and fifth grade.
